

You're Invited
to the Opening Ceremony of the
Will Beckley Science Education Garden

Our new desert garden was inspired by the children's book Red Carpet Chronicles featuring plants found in the Mojave Desert. Beckley Elementary School's first grade teacher Becky Davis is the author of this informative, yet playful book to inspire students to notice what is in their own backyard. Thanks to Arizona Charlies and the Clark County School District Grounds Crew, we have a garden with all 13 plants featured in the book. The garden is divided into educational quadrants to ensure teachers can perform lessons outdoors based on their grade level objectives.

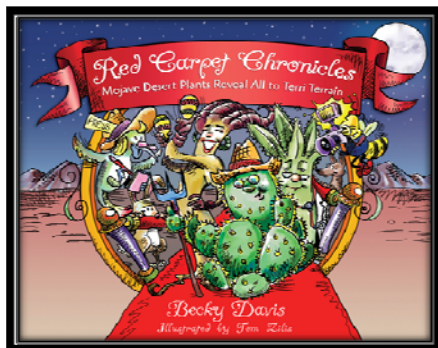

Where: Will Beckley Elementary School

3223 Glenhurst Drive

When: Thursday, June 17, 2010

4:00 p.m.

R.S.V.P. to Mayra 799-7700

We will be hosting our Science Fair in the multipurpose room immediately following the ceremony.

Sincerely, Will Beckley Teachers and Staff
